HIGHTECH NORDIC

iBase Newsletter Febuary 2024

Introducing the AMI240 – seamlessly compatible with Sierra 5G modules and Intel® i9-14900T processor for unparalleled power efficiency in demanding workloads. Featuring dual DDR5-4800/5600, up to 64GB capacity, and a wide operating temperature range (-20°C to 70°C) for challenging conditions.

Compact at 210mm x 285mm x 77mm, it delivers exceptional performance. With dual SIM slots, four RJ45 Ethernet ports, multiple M.2 slots, AMT (16.1), TPM (2.0), and PCI-E expansion, the AMI240 is your ultimate solution. Power up with confidence – 24V DC input, and voltage protection ensure reliability.
