Technology Inc

The OFT-10W04 and SID-10WR1 are two cutting-edge solutions designed to revolutionize your touch control needs.

Introducing the [OFT-10W04](#), a 10-inch open-frame multi-touch panel PC driven by Intel® Celeron™ J3455 processors. This cutting-edge device boasts a Full HD TFT LCD display, tailored to excel in touch control applications. Its streamlined, fully flat design, coupled with an easily maintainable panel, makes it an optimal choice for kiosks and beyond. Well-suited for deployment across industrial, medical, and retail environments, including kiosks, vending machines, control cabinets, and smart homes. A multitude of installation kits, encompassing wall and panel mounting alternatives, caters to diverse application scenarios.

Meet the [SID-10WR1](#), a 10.1-inch semi-industrial panel PC, powered by RockChip RK3288 processors, engineered to deliver heightened processing capabilities and equipped with a flexible OS support framework. Originally crafted for KIOSK and HMI applications, the SID Series seamlessly adapts to a myriad of field-specific requirements, demonstrating unwavering performance.

If you're in search of compact embedded panel PCs, do not hesitate to reach out to our Avalue sales team for comprehensive information and immediate assistance. [Contact us NOW!](#)
