

Portwell Newsletter April 2024

April is here, and so is your monthly dose of all things Portwell! From cutting-edge product releases to exclusive event insights, we're here to ensure you're always one step ahead in the tech game.

We're hitting the road and making waves at some of the most prestigious events across Europe. Catch us at Evertiq Kraków and Tekday Gdańsk in Poland. These events promise to be hubs of innovation and networking, and we can't wait to connect with you there!

But that's not all –We're thrilled to announce a game-changing partnership that is set to revolutionize industrial markets. Portwell , KIOSK, iProd, and Alleantia have joined forces in a strategic alliance aimed at driving digital transformation to new heights—learn more inside!

PCOM-B706GT: A Powerful and Versatile Computer-on-Module

The PCOM-B706GT offers new upgrade path for compute demanding applications such as software defined networking, edge computing, automation, military, transportation and so on.

- ✓ AMD® Embedded Ryzen™ V3000 CPU featuring "Zen 3" core
- ✓ 2x DDR5 4800 MT/s SO-DIMM, 2x 10G KR Port
- ✓ High speed SSD storage chip for small footprint embedded equipmen
- ✓ Support wide-temperature range

CAF-0102: Reliable Network Powerhouse in a Compact, Quiet Design

CAF-0102 is a powerful and versatile fanless desktop network system designed for a variety of applications, including network security, network management, and industrial automation.

- ✓ Fanless design: Quiet operation for noise-sensitive environments
- ✓ High-performance: 8x 2.5GbE RJ45 ports & 1x GbE SFP port for fast & reliable network connectivity
- ✓ Redundant power supplies: Ensures continuous operation in case of power failure
- ✓ Flexible storage options: Supports up to 32GB of DDR4-3200 SO-DIMM memory and an eMMC storage module with a maximum capacity of 256GB
