DEFENSE NAVAL PANEL PC AND DISPLAY

There are numerous reasons why Naval vessels need fully customized rugged panel PCs, Fanless Box PC, Rack Mount Server and LCD displays. Naval vessels are including submarines, warships, and destroyers, and they are all rely on the same sore of Winsonic Naval grade panel PCs and displays.

THE REASONS:

High Quality

LCD displays are known for their clear and sharp image quality, which is especially crucial in important industries like the defense industry.

Durability and Reliability

Winsonic Naval grade products provide high-strength aluminum front bezel and powder coating for anti-salt corrosion, and UV-protected. Also, all the PCBs will have conformal coating for highly humidity condition.

Backlight Visibility

Winsonic Naval grade products provide backlight control, whether day, dusk, or night visibility. Optional one-touch green monochrome night mode ideal for low light conditions.
