

Fanless Box PC for Industrial Application

IP66 Rating Fanless Box PC

BC17 Series are fanless and extremely tough computers with IP66 rating. They are superior to industrial embedded systems and can work and endure in much more unstable environments.

They have strengthened frames, M12 connections and patented technology for wide-temp operation from -25°C to 60°C .

Fanless Box PC for Industrial Application

Compact Embedded Fanless Box PC

BC05 series product are an compact size industrial computer that can perform stable processing. It has HDMI, USB×2, Gigabit LAN×2, and general-purpose I/O ports. BC05 series Industrial computers have powerful processors and low-energy components with a patented heat dissipation system. They can work with full CPU load in a wide temperature range from -25°C to 60°C for different industrial uses.
