Boost Productivity with Avalue's New Panel PCs

The image shows four Avalue Panel PCs in a blue-tinted industrial environment. In the background, a large monitor displays a glowing brain icon with circuitry, and a robotic arm is labeled "Automation machine". The four panel PCs are arranged in a row, each with a different screen display: a clock, a dashboard, a menu, and a video player. Below each panel PC is a white oval label with its model name: VNS-10WAD, OFT-07WAD, OFT-10WAD, and SID-10WAD.

Boost Productivity with Avalue's New Panel PCs
Support Windows 11, Powered by Intel® N50 processor

Avalue announces the launch of three new panel PC series designed to maximize productivity in a variety of industries. Building on the success of our popular WAD series, these cutting-edge solutions leverage the power of Intel® N50 processor and seamlessly integrate with the latest Windows 11 operating system.

Avalue Technology Newsletter January 2025

📌 Introducing our new Panel PCs:

- ◆ **OFT-10WAD:** A 10.1" open frame panel PC featuring a bright display, ample memory, and robust connectivity. Perfect for industrial automation, point-of-sale, and kiosk applications.
- ◆ **OFT-07WAD:** A compact 7" open frame panel PC ideal for space-constrained environments. Despite its small size, it delivers powerful performance and a wide range of I/O options.
- ◆ **SID-10WAD:** A fanless semi-industrial panel PC designed for harsh environments. Its rugged construction and reliable operation make it suitable for demanding industrial applications.
- ◆ **VNS-10WAD:** An ultra-slim 10.1" panel PC offering a sleek design, impressive performance, and now featuring Powered LAN for simpler, more flexible installations. It's perfect for retail, hospitality, and information display applications.
