Bringing You the Next Generation of Edge AI Solutions

Axiomtek has rolled out a series of edge AI embedded systems specifically built around NVIDIA Jetson modules, delivering exceptional computing performance for processing AI data at the edge. The AIE900A-AO is based on the latest NVIDIA® Jetson AGX Orin™ platform that features an Arm® CPU delivering up to 275 TOPS of AI performance and integrates an advanced NVIDIA Ampere GPU with 56 Tensor Cores, bringing you the next generation of edge AI solutions.
